BUILD YOUR OWN QUALITY ASSURANCE (QA) TEAM

Riseup Labs is here to build your offshore/Onsite QA (Quality Assurance) team with 'top notch' QA expertise. We help companies and enterprises digitally transform their businesses by providing software quality engineering, quality assurance, and testing. Test your software, apps, games and more with Riseup Labs.

As a top QA Company, we'll customize each deployment or update to your business objectives and modernize your platform for a fast moving, more secure, and more pleasant user and customer experience.

Why Riseup Labs?

- 13+ years of industry experience
- Qualified professionals having 10+ years of experience
- Provide budget friendly quality service within a short time
- Maintain confidentiality to handle client's information
- Strong international market base
- No hiring charges
- Provide free infrastructure support with dedicated office space
- Tax free business advantage
- Free operation monitoring support by dedicated account manager
- Staff with high english language proficiency

What Will Change in Your Business?

- Save office space
- Save overall administrative and infrastructural costs
- Save time by conducting online interviews over in person interviews
- Save resource by avoiding search for new team members or having an in-house team

How will we ensure such a 'dream team'?

- 01 Manual code review and automated code audit to ensure code's quality and adherence to coding conventions.
 - 02 Checking your software compliance with relevant standards and regulations (e.g., HIPAA, GAMP, PCI DSS, GLBA, GDPR, etc.).
 - 03 Setting up a test environment.
 - 04 Preparing test data.
 - 05 Developing test cases.
 - 06 Executing tests.
 - 07 Submitting and describing bugs in a bug tracking system of your choice.
 - 08 Providing regular test reports and reports on the QA team's performance.
-
